

## WHAT IS SMART FAMILIES?

A program designed to **encourage, empower, educate & support** parents and children to navigate the dangers surrounding technology.

## THE SMART PLEDGE

One family cannot do this alone. Make the commitment to yourself and your community to **delay** giving your child a **smartphone** until after 8th grade.

## WHY SIGN THE PLEDGE

The pledge creates a **unified community** at your school with common expectations for both children and parents. There is no good reason to give a child a smartphone and there are many known and predictable negative consequences.

## IT'S NEVER TOO LATE

It's okay to change your mind! Now is a great time to reassess how smartphones are affecting your child and family. **We're here to help.**

## TAKE THE SMART PLEDGE **TODAY!**

Make a difference in the your school community.
